

ASSESSMENT NOTICE

Brounger Divide Mining Company
Location of principal place of business, Tonopah, Nye County, Nevada.
Notice is hereby given that at a meeting of the Board of Directors, held on the 23rd day of November, 1921, an assessment (No. 2) of two cents per share was levied upon the outstanding common capital stock of the corporation, payable immediately in United States gold coin to the Secretary-Treasurer at the office of the company, Tonopah, Nevada.
Any stock upon which this assessment shall remain unpaid on the 6th day of December, 1921, will be delinquent and advertised for sale at public auction, and unless payment is made before January 17th, 1922, will be sold at the office of the company in Tonopah, on Tuesday, January 17th, 1922, at 10 o'clock A. M. to pay the delinquent assessment together with the costs of advertising and expenses of sale.
By order of the Board of Directors,
E. J. ELLICKSON, Sec'y.
Box 11, Tonopah, Nevada, November 25, 1921.

ALUM FOUND NEAR LAHONTAN

The discovery of alum ore about four miles above the Lahontan dam on the south side of the reservoir near the margin of the lake, is attracting considerable attention and bids fair to become an important factor in reclaiming adobe soil on this and other reclamation projects.

NEW BLOOD IN CROESUS MINE DIRECTORATE

Advice received from the New York office of the Eureka Croesus Mining company of changes on the board of directors indicate complete severance of Eugene Davis and his associates from the company. H. Carleton Slack, Walter Slack, H. O. Evans and C. N. Sigmon of the original directors have resigned and Major H. G. Catlin has withdrawn as consulting engineer. Major Catlin's resignation may have resulted from his recent severe illness.

Michigan interests appear to dominate the company. S. Russell Smith, mining engineer of Calumet, Michigan, is vice-president; George P. Hyde, metallurgist of Detroit, secretary-treasurer, succeeding John D. Peckner. Smith was formerly connected with the Calumet and Hecla and Hyde is said to have been associated with the American Smelting & Refining company, with which company President P. L. Torres was connected in Mexico for several years. Other new directors are A. P. Enloe, Detroit lawyer, and Dr. Harvey Weed of New York.

It was reported several months ago that a large block of treasury stock had been sold in Michigan. Subsequently, it is said, the blue sky commission of Michigan with a view to selling the stock in that state. This reported action by the commission was followed by a visit to the mine by Smith and Hyde and later to their election to the directorate, which is believed to pave the way for reinstatement of the company in that state.

Good progress is being made in sinking the Catlin shaft from the 400 level to a depth of 1000 feet. The shaft is down 625 feet and is approaching the extension of the Atlas stope. A fine ore body was opened on the 400 level two weeks ago within 300 feet of the shaft and followed for 200 feet by a winze.

We give the closest attention to all kinds of job printing. A trial order will make you a regular customer.

UTAH COMPANY WILL DEVELOP WHITE PINE

The Miller-Hamilton Mining company, organized in Utah, will soon commence development work on a group of mines located several years ago by H. S. Miller and sons in the eastern part of White Pine county. J. H. Hamilton, of Salt Lake, who was an Ely visitor during last week and who is largely interested in the property, stated that P. M. McCree, who has long been in charge of mining interests at Bingham canyon, has been secured to take charge of the work, which will be continued during the entire winter months.

CUPID SHIRKS IN LANDER COUNTY

According to the records in the office of the clerk of the Lander county court there were issued but four marriage licenses for the entire county during the year 1920, and thus far the year 1921 is behind that number. To an onlooker in the serene and yellow leaf of time, who sees daily the boys of blushing young beauties and the charming older single ladies on the streets, it would seem that Cupid is shirking his duty. The men must be adamant to resist attractions or must have been turned down so often that they have lost their nerve.

REWARD

Will pay \$250 for the arrest and conviction of one or all the parties who broke into the shaft house of the Apex Mines company and took a 30 h. p. motor and starting box. Will pay a further reward of \$100 for the seizure of the motor and starting box. A further reward of \$100 will be paid for information leading to the arrest and conviction of one or all the guilty parties.
N144f. J. G. CRUMLEY.

NO NEED FOR ASSESSMENT

Herman Zelig has wired to Ben Gill, secretary of the Silver Pick at Goldfield, that there is no necessity for levying an assessment on Silver Pick. This company is operating a lease on the Red Top and has recently developed an ore body from which shipments will shortly begin.

Location books in triplicate for sale at the Bonanza.

GOOD SHIPPING ORE RESULTING FROM LEASES

Several Consolidated lessees have made shipments recently and others are preparing to ship, according to the Goldfield Tribune. The work of lessees is continuing at the normal scale.

O'Neil and Conrath on the February, after sinking a 50-foot shaft, have just entered a vein in a cross-cut to the southeast, but no assay returns are available yet. Poffenberger and Grimes, in the vicinity of the main Combination shaft, are accumulating some ore near the surface east of the shaft. South of them Schraumm is working above the third level and has shipped a carload of ore to the Belmont mill at Tonopah. He also has ready a small shipment of high-grade ore that will probably go to the smelter some time this week.

Manyhouse and Dulic, working to the south of Schraumm, are prospecting the south end of the Combination vein. They are saving some ore and probably will ship soon. Northwest of Poffenberger and Grimes, Otto Grimm is working near the surface in the old January glory hole and north of Grimm, Miller is continuing his work. Simpson and Porter are prospecting west of Miller in the old January workings and recently made a shipment.

John Sells is working in the vicinity of the old Oddie shaft on the Mohawk. Between the third and fourth levels of the Mohawk, Howard is getting a little ore of good grade. Marcotte and Petrovec, on the fourth level of the Mohawk, are saving ore.

One set of lessees on the Junho have a showing of good ore on the surface. These lessees also have a block on the Combination Fraction.

CALUMET BAKING POWDER

stands for

ECONOMY

No Failures No Waste

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Another lessee is prospecting further south on the Junho.

BENEFIT CARD PARTY

The Women's Relief Corps will give a card party for the benefit of Ed Harmon, G. A. R., December 1, at 6:00 P. M. at the Elks Club. Sharp chart.

With acknowledgments to R. C. B.

Don't stick with the prunes

MY DAD'S favorite yarn
WAS THE one about
THE OLD storekeeper
WHO WAS playing checkers
IN THE back of the store.
AMONG THE coal oil
AND THE prunes.
WHEN THE sheriff
WHO HAD just jumped his kind
SAID "Si there's a customer
WAITIN' OUT front"
AND SI said "Sh-h-h!"
IF YOU'LL keep quiet
MEBBE HE'LL go away."
NOW HERE'S the big idea.
WHEN A good thing
HAPPENS ALONG
DON'T LEAVE it to George.
TO GRAB the gravy.
FR'INSTANCE IF
YOU HEAR of a smoke,
OR READ about a smoke,
THAT REALLY does more
THAN PLEASE the taste.
THERE ARE no hooks on you.
THERE'S NO law against
YOUR STEPPING up
WITH THE other live ones.
AND SAYING right out
IN A loud, clear voice
"GIMME A pack of
THOSE CIGARETTES
THAT SATISFY."

YOU'LL say you never tasted such flavor, such mild but full-bodied tobacco goodness. You're right, too, because they don't make other cigarettes like Chesterfields. The Chesterfield blend can't be copied.
